Syntax Problem #1

Objectives
1. Practice Writing Python code
2. Practice Running Python code
3. Use of simple Python I/O

Due by the beginning of the next class.

Problem

1. For this syntax problem you are to write a Python program that will print the following items to standard output
   - Full Name
   - Class at Valpo (Sophomore, Junior, Senior)
   - Hometown
   - Favorite Color
   - Favorite Book

Notes:
   - Make sure documentation (e.g., comment block and comments throughout code) is present in your source code
   - Make output informative so that anyone running your program understand what is being produced without seeing the assignment.
   - Name the program **syntax1_<username>.py** and place a copy in
     `/archive/courses/met330/syntax_problems`
